

## **2018 Manlius Racing League**

### **Rules:**

#### **Fee - \$40 / Race Team**

**Payment is due by Friday February 16, 2018.**

**Please pay by check - Send to: Jeff Neuss 8375 Craine Drive Manlius, NY 13104**

1 - There are 36 NASCAR Points Events in 2018.

I have divided the season into 4 Segments.

Segment #1 will consist of 8 races

Segments #2 and #3 will consist of 9 races each.

The final segment is the "Playoff" and will consist of 10 races.

2 - Each player will create a team of 4 drivers for each segment.

Give your race team a name for the year.

Use the attached Spreadsheet to pick your team for the quarter.

Each team must consist of one driver from each Group (A, B, C, D).

You then own those 4 drivers for that quarter.

3 - Each player will then accumulate the total points that the driver's on your team receive from NASCAR.

Please note that you are picking a driver and not a team.

If your driver does not make the race - "NO POINTS".

If your driver is permanently removed from the car by the team owner,

after taking 2 races without points, you can replace that driver for another.

send me the request, I will review and notify all teams of any changes.

**NOTE: Each team is allowed only one "replacement" per year.**

You DO NOT receive the "adjustment" points awarded or removed for the NEW Chase Format.

4 - Each player is allowed to use a driver for ONE quarter only.

After you use that driver he is no longer available to you.

5 - You must submit your team BEFORE the green flag of the first race of each quarter.

I will send out reminders to all race teams.

If you are late getting the picks in - I will post "0" points each race that you are late.

6 - Points will be totaled for each quarter and for the entire year. Payouts are as follows:

Positions 1 - 4 for each Quarter Point totals

Positions 1 - 5 for the Yearly Point total

Highest individual Weekly Point total for the year.

7 - I will give updates weekly (or as often as my travel schedule will permit!).

**Good Luck!**
